Halong Bay...

Located in the Gulf of Tonkin, within Quang Ninh Province, in the northeast of Vietnam, the destination has been designated as a UNESCO World Heritage Site since 1994. Covering an area of 43,400 ha and including over 1600 islands and islets, most of which are uninhabited and unaffected by humans, it forms a spectacular seascape of limestone pillars and is an ideal model of a mature karst landscape developed during a warm and wet tropical climate. The property's exceptional scenic beauty is complemented by its great biological interest.

Bhaya Cruises is proud to be the pioneering enterprise that contributes tirelessly to protecting the environment and supporting the local communities in Halong Bay. Our projects include:
